EASY

PRODUCTS THAT IMPROVE YOUR LIFE

Introduction

Obesity has become one of the primary medical issues facing our society today. One of the concerns facing people with this condition is the increased effort required for mobility and general lifestyle independence, especially when coping with other illness or injury.

We believe that everybody should have access to high quality, affordable home healthcare products, including those most in need who have requirements over and above our standard product range.

Our range of heavy duty products assist users and carers to regain confidence and independence in the home. There are options for the bathroom, bedroom, general mobility assistance and all come without the premium price tag so commonly asked of larger users.

Heavy Duty Product Options

The MLE bariatric product range has been specially designed and tested to cater for larger Australians.

We rigorously test all of our products to the highest standards with one of the worlds largest independent laboratories. These products are designed specifically for larger users and enjoy features such as a generous seating sizes, extra soft padding on crutches and adequate reinforcement to give users and carers peace of mind.
